4 June 1963

MEMORANDUM FOR THE RECORD

SUBJECT : Telephone Conversation with Kelly Johnson

1. On 4 June the undersigned had a chat with Kelly Johnson, who stated that he had just completed a meeting with General Jimmy Doolittle, who had arrived at his office with an urgent request to be brought up-to-date on the recent accident involving OXCART aircraft #123. Mr. Johnson stated that he played a record of an interview, conducted by 25X1A , of the pilot of #123. Since General Doolittle had only a short time for the visit, very little else than the playing of this tape occurred during the meeting.

2. Kelly Johnson stated that General Doolittle is flying back east to Washington either today or tomorrow. It is Kelly Johnson's impression that General Doolittle may possibly be having a meeting with the President concerning this matter.

3. When asked by the undersigned about General Doolittle's reaction concerning the accident, Kelly Johnson stated he seemed to be satisfied at the measures being taken.
